

Smog Check Consumer Assistance Program

The Consumer Assistance Program offers three options to help California consumers whose vehicles need Smog Check repairs to bring them into compliance with California emissions standards. These options not only aid consumers, but help clean California's air by reducing vehicle emissions.

The following options are now available: ***Repair Assistance, Vehicle Retirement, and Repair Cost Waiver.*** Look inside for more details.

Smog Check Consumer Assistance Program

If your vehicle needs help meeting California's clean air standards, the California Department of Consumer Affairs/Bureau of Automotive Repair may be of help. You may be eligible for assistance in paying for repairs, or paid to retire the vehicle, or receive a two-year repair waiver.

(1) Repair Assistance

Income-Eligible: You may qualify for assistance in paying for repairs if your household income is not more than 185% of the federal Poverty Guidelines (see Table 1). If you qualify, you must pay the first \$20 toward diagnosing and repairing your vehicle's emissions-related problems. The state will then contribute up to **\$500** in emissions-related diagnostic and repair services to your vehicle.

– OR –

Test-Only Eligible: You may also qualify for assistance if your registration renewal notice indicates that your vehicle is required to have its Smog Check inspection at a **Test-Only** station. If you qualify, you must pay the first \$100 to diagnose and repair your vehicle's emissions-related problems. The state will then contribute up to an additional **\$500** in emissions-related diagnostic and repair services to your vehicle. (If you apply, and qualify, for income-eligible assistance, you will only have to pay the first \$20 toward diagnosing and repairing your vehicle.)

Table 1 — Poverty Guidelines

Number of People in Household*	Maximum ANNUAL Gross Household Income	Maximum MONTHLY Gross Household Income
1	\$15,448	\$1,287
2	\$20,813	\$1,734
3	\$26,178	\$2,182
4	\$31,543	\$2,629
5	\$36,908	\$3,076
6	\$42,273	\$3,523
7	\$47,638	\$3,970
8	\$53,003	\$4,417
For more than 8, add the following amount for each individual:	\$ 5,365	\$ 447

* "Household" means all family members or other persons who reside together and share common living expenses — **BE SURE TO INCLUDE YOURSELF!**

(2) Vehicle Retirement

If you don't feel your vehicle is worth repairing, the state will pay you **\$1,000** to voluntarily retire it. You must not have retired a vehicle through the Consumer Assistance Program within the preceding 12-month period.

To qualify for either Repair Assistance or Vehicle Retirement, your vehicle:

- ★ Must be required, every other year, to obtain a Smog Check certificate as a condition of registration.
- ★ Must be a passenger car or light- to medium-duty truck that is currently registered as an operable vehicle with the Department of Motor Vehicles. (For **Vehicle Retirement**, your vehicle must have been continuously registered in California for at least the last two years).
- ★ Must not have a tampered emission-control system.
- ★ Must not be in the process of being sold or being registered for the first time.
- ★ Must need assistance to meet Smog Check requirements.

If you are interested in applying for Repair Assistance or Vehicle Retirement, please complete the attached application. The Bureau of Automotive Repair must receive a completed application not later than 90 days after the expiration date of the vehicle's registration with the Department of Motor Vehicles.

(3) Repair Cost Waiver

You may be able to register your vehicle, even if it does not pass its Smog Check inspection, with an extension that gives you two years to complete necessary emissions-related repairs. To qualify, you must spend at least \$450 on the repairs at a licensed Smog Check station. You do not need to complete the application to schedule an appointment. For more information, call **1-800-622-7733**.
